Subject: Gandy Bridge Efforts

I would like to express my personal thanks for the extraordinary efforts put forth by the entire team to repair the Gandy Bridge with minimal disruption to the public. The reaction, assessment, plan development, and implementation of the repair strategy exhibited a total focus to the objective at hand: repair the bridge without disrupting traffic (as much as possible) and return it to full operating condition that the public needs. I am thankful to even be able to be associated with this group. On behalf of the citizens of Florida--Thank You for a job well done.

Don
