Subject: TT Fire NB 126

I just want to say that the experience last week on the TT fire was great. Never having to use ICA since you all started in Dec. the response and the attitude with your team members was excellent. Please share this with all that came out, the guys and girls that responded for ICA all had the attitude of doing what ever was needed and now days that is hard to find in people, so I really appreciate what everybody done to help me on the side of VDOT..

Thank you,

Todd Hamlett
